

## Pilot training course

**Efficient and ecological use of resources and environmental protection for *environmental engineers*** (36 hours)

Author: Impulsa Ideas SL (Spain)

MONTH	TIME	SUBJECTS	OBJECTIVES	TEACHING METHODS AND TECHNIQUES	EVALUATION
<b>JANUARY 2014</b>	<b>3</b>	Environmental European Law	Learning the main rules of Environmental Law	Presentation, listening and communicative approach.	Evaluation questionnaire
<b>FEBRUARY 2014</b>	<b>3</b>	Environmental European Policy	Learning the main rules of European Policy		
<b>MARCH 2014</b>	<b>4</b>	Global environmental problems Causes, forms and types: air pollution, wastes, soil pollution...	Learning the main problems		
<b>APRIL 2014</b>	<b>4</b>	Global environmental problems. The main ecological answers	Learning the main answers and solutions to the main problems		
<b>MAY 2014</b>	<b>3</b>	Water resources and environmental pollution.	Learning natural ecosystem and pollution causes.		

<b>JUNE 2014</b>	<b>3</b>	Water resources management.	Learning all the new systems for ecological and responsible water use	Presentation, listening and communicative approach	Evaluation questionnaire
<b>JULY 2014</b>	<b>3</b>	Renewable resources and environmental pollution.	Learning natural ecosystem and pollution causes.		
<b>AUGUST 2014</b>	Holiday time				
<b>SEPTEMBER 2014</b>	<b>3</b>	Renewable energy management.	Learning new systems for a responsible and ecological use.	Presentation, listening and communicative approach.	Evaluation questionnaire
<b>OCTOBER 2014</b>	<b>3</b>	Fertilizers and pollution. Ecological fertilizers	Learning the pollution problems due to fertilizers and the new ecological fertilizers.		
<b>NOVEMBER 2014</b>	<b>3</b>	Pest control and environmental pollution/ biological pest control	Learning the pollution problems due to pest control and the new ecological systems for the pest control.		
<b>DECEMBER 2014</b>	<b>4</b>	Practice session about the whole course and the environmental engineers' special task and role.	Learning the most important conclusions.	Group work	Write a conclusions' report
