EVALUATION OF THE SPANISH TEAM.

We got a lot of good feedback from the participants after to talk with them during the meeting. We are proud that all visits have been favorite to the participants so that we think we fulfilled a very diverse program for all the different people and related to the theme of the project!

We have good feedback relating to the atmosphere during the mobility: people felt that we took care of them – we think this is an important point for a good success of the meeting! People have to feel welcome, than they can work together well and motivated!

For us was a great experience and we learn a lot from this meeting, all the team is happy with the success of the meeting and motivates to improve and make better for the rest of project.
